P-6

To what level must the Rescue Team Leader, Attendant, Rescue Team, Back-Up Rescue Team and Atmospheric Monitor be trained?

P-6,7,8.

Who normally fills the position of Technical Support Team Leader?

P-8

Who normally fills the position of Technical Safety Officer?

P-8

Who normally fills the position of Rigging Crew?

P-9

Training Bulletin 104

The US&R Task Forces within the city are assigned at what 3 fire stations?

P-10

A Size Up for a US&R incident should include...

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.

P-11

Statistics show that ___% of all confined space deaths are potential rescuers associated with secondary entries.

P-12

Who regulates and governs work in confined spaces?

P-12

A Confined Space is defined as...

- 1.
- 2.
- 3.

P-12

All spaces shall be considered "permit required" until a....

P-13

The on scene assessment of a confined space rescue is divided into three areas.

- 1.
- 2.
- 3.

P-13

Training Bulletin 104

The MOST critical area impacting firefighter/rescuer safety is that of...

P-14

OSHA records have shown that ___% of all confined space injuries and deaths are related to Atmospheric conditions.

P-14

Atmospheric Hazards are referred to as those that exceed....

What ___% of the Lower Explosive Limit?

Combustible dust that limits visibility to ___feet?

Atmospheric oxygen contents below ___ or above ___?

P-14

The primary method for controlling atmospheric hazards is?

P-15

Due to their very nature, confined spaces should not be ventilated with...

What should be used?

P-16

Define the procedures necessary for a "lockout-tagout"...

P-16

Personal protective equipment PPE affords protection against two groupings of hazards... They are..

1.

2.

P-17

What type helmet is recommended?

What type PPE for Flash Protection?

What type boots?

What type gloves?

Training Bulletin 104

Name the 2 types of respiratory protection...

1.

2.

P-18

In Hazardous Materials the highest level of Protective clothing is a Level ____

In Confined Space rescues the highest level of Protective clothing is a Level _

P-19

The mandated documentation for a Confined Space rescue is found where?

P-19

A copy of the Confined Space rescue entry permit is forwarded to whom and retained for how long?

P-20

No entry shall be initiated until....

P-21

Define the final phase of a confined space rescue...

P-21
