Role-playing Ideas

- Have one member “role play” the position of “Inside Firefighter” in order to provide a solution.
- You can also divide members into groups in order to develop solutions.
- Solutions should be submitted via email to tdg@lafdtraining.org
- Solutions from the field can be viewed online at www.LAFDtraining.org.

You are the “Inside Firefighter” assigned to Truck 20. At approximately 0200 hours, Task Force 20, RA 20, Engine 3, RA 803, Engine 56, Batt. 11 and EMS 11 are dispatched to a reported structure fire at 2328 Echo Park Avenue.

When you arrive on-scene you observe a 2 story Victorian house with fire showing from two windows on the second floor. Members from Truck 20 ladder the building and begin roof ventilation operations.

Members from Engine 20 establish a supply line and also a fire-fighting line to the front door.

All ground floor windows are fortified with security bars. There is a large, front porch with what looks like a barred cage surrounding it. Neighbors state that there are possibly people still inside. Engine 3 arrives on-scene and is assigned “search and rescue”. The IC requests one additional Task Force.

Engine 56 arrives on-scene and is assigned salvage on the 1st floor. E20 is having difficulty making entry thru the locked security gate at the front porch.

Inside FF Guidelines

- Describe your priority of order for forcible entry operations
- Describe which tools you will be using
- What are your duties when forcible entry is completed and who do you report too?
