

TACTICAL DECISION GAMES

TDG #2 Solution Worksheet

Fire Ground Considerations:

Life hazard
Safety of crew
Building construction – common attic?, common facade?
Horizontal spread of fire, specifically to the D side
Type of fire attack
Additional resources needed

Fire Ground Company Actions:

Give detailed size-up
Identify self as IC
Request additional resources
Identify staging area
Have FF pull 2 ½", flake
Have Hydrant man, after giving Eng water, take pike pole to identify the integrity of facade and fire spread within facade
Fire attack dictated by conditions within facade (interior v exterior)
Assign E-77 appropriate fire attack to D side unit
Assign incoming units accordingly (especially Truck for vent.)
Give status and update to arriving BC and transfer command.
