

TACTICAL DECISION GAMES

TDG #2 Solution Worksheet

Fire Ground Considerations:

- Time of day/possible life hazard
- Safety of crew
- Water supply
- Exposures
- Façade/ stability & fire involvement
- Experience of crew
- Building construction
- Roofing construction/light weight

Fire Ground Company Actions:

- Lay a line
- Give size-up to OCD
- Request additional resources:
 - 1 additional BC
 - 3 Task forces
 - 2RA's
 - 1 EMS
- Request addition tac channel
- Crew have all PPE'S & SCBA
- Quick evacuation of other units
- Use wagon battery for quick knock down of fire (brief use)
- Pull 1 ¾ line for fire attack
- Check façade for fire extension by breaking lights under façade
- Fire attack with rookie & hydrant person on fire unit, pull drop ceiling and try to confine fire to the west of involved unit
- E-77 fire attack on east unit & check extension of fire, keeping fire from extending east
- LF-89 ventilation on roof
