

## Tactical Decision Games

### FIRST IN

### VOLUME 1 Issue 2

#### Company Actions

- I. Bring Water
- II. Provide an aggressive fire attack to prevent fire spread/travel
- III. Determine Extension
  - A) When the fire laps out of the involved unit, it must be immediately knocked down to prevent fire spread and make a tenable entrance for Engine 89. Utilize the wagon battery and only use enough water to quickly knock down the fire in the front.
  - B) After take in a 1 3/4" hoseline in the involved unit with the probationary Member while the hydrant member later joins the company bringing the pike pole to ensure no fire is above them that could lap behind them.

#### Assignment

- E-77 Exposures; two adjacent units on either side
- LF89 Ventilation

#### Additional Resources

- 3 Task Forces
  - 1 for Rapid Intervention
  - 1 Ventilation (assist LF89 with cutting a strip to prevent further horizontal Spread.
  - 1 Back up Fire attack and Exposures
- 1 RA Rapid Intervention/ Medical Standby
